WHAT IS OPERA CONFERENCE?

What is Opera Conference? It's the world's most influential gathering of North American opera producers, tackling pressing topics regarding the creation, production, and enjoyment of opera.

The 2025 event will challenge the opera field to confront the future of opera as both an art form and a business. Questions about how companies can deepen their value to the communities they serve and how opera can be a beacon for civic impact on the local level will shape the national discussion. Together, we will develop solutions and strategies that advance the creation and sustainability of opera and elevate its role in society.

AT OPERA CONFERENCE, YOU WILL:

- Hear from leading thinkers, engage in thoughtful discussions, explore opportunities for collaboration, and investigate solutions to field challenges
- Gain practical tips and learn about specific strategies for success
- Expand your professional network to advance your career
- Enjoy a performance of *La Calisto* from our host company, Opera Memphis, and a presentation of new work
