Mentorship Program for Women Administrators

Established at the recommendation of the Women’s Opera Network

Supported by OPERA America’s Backstage Brunch

2021 Protégé Guidelines and Application Procedures
Goals

Women represent more than half of the national population, yet the percentage of women in leadership roles within the field of opera is comparatively small. OPERA America is addressing these issues by convening a group of stakeholders (both female and male) to explore and work actively to advance gender parity field-wide. OPERA America’s Women’s Opera Network works to increase awareness of and discussion about diversity and gender parity in the field, create action plans to promote the advancement of talented women, and become a source of support for emerging female professionals.

The Mentorship Program for Women Administrators provides support for the professional development of female administrators at OPERA America and Opera in Canada member organizations, advancing the important objective to increase gender parity across the field.

About

The Mentorship Program for Women Administrators is an ongoing initiative to promote the advancement of women leaders in the field of opera administration. This program will provide a unique opportunity for the most promising female professionals to be paired with administrative leaders who can help these protégés achieve their professional growth goals. Three female professionals will be paired with established leaders in their areas of interest for a yearlong program to identify barriers and achievement gaps, and then establish and execute an action plan for professional growth.

OPERA America will provide funding for protégés to travel to and attend Opera Conference 2022, as well as support mentorship teams with a structured program and additional resources for in-person and remote mentoring sessions.
